**BOARD OF TRADE.**

The Annual Meeting Wednesday Night Very Largely Attended.

**A NUMBER OF NEW MEMBERS**

WHO FULLY RECOGNIZE THE BENEFIT THE BOARD IS TO THE DISTRICT.

The annual meeting of the Board of Trade of the District of Rainy River was held in Rice's hall, Wednesday evening, and it was the largest in the history of the organization. About 10 new members, among whom were the leading men of the town, were added to the membership. From the deep interest evinced by all on the Board and the objects for which it is maintained, there is no doubt but this year will witness the most active propaganda of its existence.

The report of the secretary, E. A. Chapman, showed that much work had been accomplished last year, and at great sacrifice to a few of the members. The finances of the institution during the year were in a somewhat weak state, but with the addition of the large new membership the Board is now in splendid shape.

The address of Wm. Margach, the retiring president of the Board, was clear and concise and showed the great amount of work done by the Board of Trade during the past year. Mr. Margach has been an indefatigable worker in the interests of the district at large, and particularly that portion which is directly tributary to Rat Portage. His position of crown timber agent in this section has afforded him great opportunities for studying the possibilities of the district and also the difficulties which from time to time crop up. The great amount of information he has thus been enabled to gather

ary to Rainy river and which will necessitate the closing down of some of the mills. Some action should be taken by the Board in representing this to the provincial government, with a view of having their assistance in building dams and forming reservoirs, which would help not only in the transit of the logs but improve navigation on the rivers and lakes. This has been done on the Muskoka, Trent and Mississippi, and has rendered great service both to the lumber industry and navigation.

As to the fishing industry, I have been unable to get statistics, but I am informed by the various operators that they have been very successful this season, especially in sturgeon, as the caviar has become of such value as to render sturgeon fishing most important.

As to the pulp industry, I know of no part of the province of Ontario where there is such a large quantity of spruce and poplar as there is in the district of Rainy River, and I am confident there is no part that furnishes such a large number of water powers, which are essential in the manufacture of pulp. Some action should be taken with a view of having this industry established.

The Board appointed a deputation in February to wait upon the minister of public works with relation to the building of locks on Rainy river. The deputation reported that they had waited on the Hon. Mr. Tarte, minister of public works, with relation to the locks and he informed them that he would support an appropriation sufficient to do the work, and he expected that his colleagues would concur in the expenditure, but distinctly refused, spending any money in the way of improving the river as he stated it would simply be drowned when the locks would be built. From the positive manner in which he expressed himself, we fully expected the amount would be in the estimates sufficient to commence the work and I now of opinion that no time should be lost in bringing the matter before the Dominion government, as it is an appropriate time, the water being so low and the stagnation of trade by reason of the lack of equipment of freight and passenger boats at the Sault rapids. The deputation will write upon the Hon.

**RICH FOLEY STRIKE**

Big Strike Made on This Well-Known Gold Mine.

**SEINE RIVER SHOWING UP WELL.**

RECENT RESULTS GRATIFYING, WORK DELAYED BY LACK OF MINERS.

N. B. Hall, M. E., manager of the Olive mine is in town this week looking for miners. He reports that mining is a little quiet up in the Seine country just at present owing to the low water but that the Olive, Foley and Golden Star are pushing their work vigorously. On the Foley the work is going ahead with vigor under the management of O. P. Robinson. A big strike was just made on the 2nd foot level of No. 5 shaft in the crosscut. A six foot vein of quartz carrying free gold all the way across was encountered and the indications were that the vein was still wider. This is good news and proves that the Foley is everything it has been represented. It is not likely that the mill will be started for some little time yet.

The work on the Golden Star mine is now going steadily on. The shaft on the new vein is down about seventy feet and the showing is fine. The vein is large and assays high and some rich ore has been found on fifth level of the old vein. The fact of the matter is that when the price of the stock was lowest the showing at the mine had never been better. The mill is dropping steadily and producing bullion regularly.

The Olive mine has been handicapped by lack of men but the 25 stamps are dropping on the ore from the big veins. The ore averages very well, but once in a while a pocket is struck

Trade during the past year. Mr. Margach has been an indefatigable worker in the interests of the district at large and particularly that portion which is directly tributary to Rat Portage. His position of crown timber agent for this section has afforded him great opportunities for studying the possibilities of the district and also the difficulties which from time to time crop up. The great amount of information he has thus been enabled to gather has been placed at the service of the Board and has been and will be, of great benefit in awakening both the provincial and federal governments to the needs of this district. Following is his address:

Gentlemen, your secretary's report for the past year will deal with the actual work which has been done. There has been much done which can not be reported. It affords me a great deal of pleasure to be able to report not only the increasing membership but the large amount of work which has been accomplished by the Board, which in many instances proved of great value to the district. Our desire is to assist in every way possible the development of the various industries and the furnishing of information to those inclined to invest in the different industries, which afford opportunities for men of means and enterprise.

The past year has shown beyond any doubt that the mining industry has become not a question of speculation, but when worked scientifically and economically renders such a profit as to commend itself to capitalists, and at no time has there been so much actual work done in mining as at present.

As to the lumbering industry of Rat Portage, I am happy to say that the output of last year exceeds 1801, seventeen millions, the output this year being fifty-one millions, and the prospects of the present season is much better than last. The Rat Portage Lumber company has built a large iron burner, dry kiln and put in band saw and other improved machinery to the extent of \$30,000, thus showing the permanency of the industry.

As to the lumber industry of Keewatin, I am pleased to say it surpasses the output of last season by 2,500,000, it being 15,500,000 this year. They have put in band saw and other improved machinery to the extent of \$10,000.

It is to be regretted that the lumber industry is likely to be curtailed by reason of the large quantity of logs held up in the various streams tributary to the district.

**Chesterton & Co.**  
MINING BROKERS.  
RAT PORTAGE, - - ONTARIO.

the positive manner in which he expressed himself, a fully expected the amount would be in the estimates sufficient to commence the work and I now of opinion that no time should be lost in bringing the matter before the Dominion government, as it is an opportunity time, the water being so low and the stagnation of trade by reason of the transshipment of freight and passengers at the Sault Rapids. The deputation also waited upon the Hon. Mr. Mulock with reference to mail service between Rat Portage, Rainy river and Fort Frances. They asked for a weekly mail, which was granted. They also waited upon the minister of marine and fisheries, with reference to three lighthouses on Lake of the Woods, one at Burton island, one at Big Island and the third at Birch point. Two have been granted, the selection being left to the navigators.

The deputation also waited upon the Ontario government with relation to colonization roads, that is, a road to Matheson bay and one to the north and east of Rat Portage. They were promised that due consideration would be given their request, and the amount asked for has since been placed in the estimates and no doubt at an early date the work will be done. They also asked that a dam be placed at the outlet of Whitefish lake, thus rendering Whitefish and Sturgeon lakes navigable water for a distance of 20 miles and creating a waterpower, which would be of great benefit to the mining industry of that part of the country, as it is within 2 1/2 miles of the Regina mine, and sufficiently high to furnish electrical power to the Gold Panner, Virginia and a number of others in that locality. The government has not granted this request, but it should not be lost sight of.

As to the progress of our town, I find that the population this year exceeds that of last year by 1,000, it now being 4,750. As to the assessment value it has increased \$180,000 over last year.

I cannot close my report without mention of the handsome station, round house and the scientific manner in which the C.P.R. Co. has laid on their yard, which will no doubt be a great benefit to the town of Rat Portage as well as a credit to the company.

Mr. Margach's address was received with applause and on motion of Geo. Drewry, a vote of thanks was tendered Mr. Margach for his untiring efforts as president of the Board.

After the discussion of many matters affecting the welfare of the district the following officers were elected for the present year:

President, Frank Gardner; vice president, C. E. Neads; members of council, Geo. Drewry, J. W. Humble, W. A. Weir, E. A. Chapman, D. C. Cameron, Walter Ross, W. G. Cameron and J. E. Rice.

The Toronto Globe correspondent in Dawson City estimates the probable amount of gold from this spring's Klondike washup at \$25,000,000.

ore has been found on fifth level of the old vein. The fact of this matter is that when the price of the stock was lowest the showing of the mine has never been better. The mill is dropping steadily and producing tolls regularly.

The Olive mine has been handicapped by lack of men but the 25 stamps are dropping on the ore from the big veins. The ore averages very well, but once in awhile a pocket is struck which mills very rich. Mr. Hall returns tomorrow night on the Keenore to Mine Centre.

**Anglo-American Consolidated.**  
The foreman on this company's work in the Manitoba Boundary district was in town this week bringing with him several sacks of sample ore from the "Katie May," on which development work is progressing. The assays from one vein which is nine feet wide average \$18.00. The company is considering the sinking of a shaft 50 and perhaps 100 feet on this lead. The secretary of the company also informs us that arrangements are being made to sink a shaft on "Keystone," which immediately joins the Wendigo on Witch bay. The vein on the latter from which the main run of 200 tons is now being made extends across the "Keystone."

# FOURTH OF JULY.

The American Town of Fort Hyland to celebrate in Royal Style.  
Messrs. Clark and Hyland, of Fort Hyland were town this week and they say that a grand celebration is to be given at that place. It is expected that the Rat Portage and Keeweenaw bands will be in attendance and a general good time is promised. Fort Hyland is on the American side of the river opposite Beaver Mills and is situated at the place where the new Winnipeg and Southeastern railway will cross the river. There is an excellent field for sports of all kinds and also splendid water for the quail sports. There will be single and double scull races, one two and four man canoe races, tumbling, jumping, vaulting, 22 roofing and other sports, and a grand display of fireworks in the evening. The committee consists of Thos. Cathcart, Dan Hyland and John Kylon, which is a sufficient guarantee that a good time will be provided. The Rainy River Navigation Co. will give special rates for the trip. The Keenore will take excursionists from Rat Portage for \$2.50 round trip. The company will take excursionists from Fort Frances, Koochiching and other river points for \$2.50 round trip. This is a chance to get a cheap trip and have an enjoyable outing at the same time. A large crowd is going from river points and it is expected that a large crowd will go from Rat Portage, in fact a great number have signified their intention to go, and they will doubtless induce others to accompany them.

## THE DISTRICT COURT

The Address of His Honor Judge  
Chapple to the Grand  
Jury.

The district court and general sessions of the peace opened at the court house Tuesday, with His Honor Judge Chapple presiding. Following is his address to the Grand Jury:

Gentlemen of the Grand Jury:

"You have been summoned as the Grand Jury or Grand Inquest for this judicial district to consider and report upon matters of importance to the district and especially to assist the court at its present sittings in the administration of the criminal law. As you are aware, the most important part of the duties of a grand jury is to enquire into the case of those who are accused of committing criminal offences in order to decide whether sufficient grounds exist for sending such persons to stand their trial before a petit jury. The grand jury is thus not a jury for the trial of the guilt or innocence of the accused, but simply to consider from the evidence which has been produced before them if he should be put upon his trial, and the matter of guilt or innocence decided by a petit jury, after hearing all the evidence in the case. As you are aware, you only hear such evidence as the Crown submits to you. English law requires that before any one can be called upon to stand a trial for and defend himself against a charge of crime, before a petit jury, twelve at least, of the grand jury, must be satisfied that there is reasonable evidence pointing to his guilt, or, as is usually expressed, there is a *prima facie* case established.

"The community has to be protected against the evil actions of criminals, but every person charged with an offence is entitled not only to a fair trial but also to the protection of the law against an unfair prosecution. Your function is to stand between the law and the transgressor, between parties injured by criminal acts and the parties charged with committing them, and you have to see that unfinishing and proper justice is meted out in every case brought before you. You are sworn not to present any one through envy, hatred or malice, or to leave any one unpresented through fear, favor or affection.

"Persons charged with offences are amply protected against a wrongful or prejudicial conviction.

magistrate should admit the accused for trial, the prosecution then becomes a public one, and passes into the hands of the provincial government and is carried on by the Crown. Then the case is taken before the grand jury, in every case of the accused not electing, as he has the opportunity of doing, to be tried summarily by the judge of District Judges' Criminal Court.

In investigating the charge you hear only the witnesses brought by the Crown in support of it. On that evidence, if you find the accusation is established, you bring in a 'true bill'; otherwise, 'no bill' should be returned. In the first case, i.e., when you find a 'true bill', the accused has to stand his trial before a petit jury, where he has the opportunity of making as full a defense as he can make. In case of 'no bill' being found he is released as to that charge. The protections placed by the law around criminal prosecutions are not for the purpose of shielding offenders against the consequences of their criminal acts, but they are taken for the laudable object of affording protection to those who might be accused unjustly, or by error, or for crimes they have not committed, and to prevent the remotest chance of convicting an innocent party. Everyone is interested in seeing the laws duly obeyed and respected, and when they have been violated it must be the desire of all good and honest members of the community that the transgressor should be prosecuted and account for his misdeeds. A true and unbounded confidence in the administration of justice is a real comfort to peaceful and law-abiding citizens.

"I must again congratulate you gentlemen, and through you the inhabitants of the district, on the small amount of crime that has been committed in the district since we last met.

"In a new country, such as this, where immigrants are coming in from all parts of the world, it would not be surprising if offences of a serious nature are occasionally committed, but it may be truly said that the laws of the land are generally held in very high respect by our population. Our abundant resources afford to every person willing to work, easy means of earning an honest livelihood. This, no doubt, with an efficient administration of justice, accounts for the non-prevalence of crime in the district.

"At the present time I am informed by the sheriff that there is only one person in jail awaiting trial, who I am sorry to say is a young man just starting out on the sea of life, who is accused of theft. You all have noticed what constitutes the crime of theft. It is defined in the Criminal Code as the act of fraudulently and without color of right, taking the goods of another person.

## "THE POPULARITY OF

# Apollinaris

("THE QUEEN OF TABLE WATERS")

is chiefly due to its irreproachable character."

*The Times.*

"DRINK NOTHING but Natural Mineral Water, such as Apollinaris, free from all vegetable poisons."

*Boston Journal.*

to the prejudice of the said association.

"It appears that the accused is the owner of or interested in certain property in the town upon which there is a mortgage of \$500, and upon which there was a stable which he is accused of willfully destroying to the prejudice of the mortgagees.

"The witnesses for the Crown will be examined, before you, and after hearing them you will decide whether to find a true bill or no bill.

"For the information for those of you who are serving for the first time, I will point out a portion of your duties. The Crown Counsel will present to you in each case what is called an indictment on the back of which are written the names of the witnesses for the Crown. All of these may be examined by you, and as each is examined your foreman should place his initials opposite the party's name on the indictment. All witnesses are sworn by your foreman. Formerly the oath had to be administered in open court, but it is now different.

After hearing the evidence you then come to a conclusion in which twelve of you must agree, as to whether there should be a 'true bill' or 'no bill.' Having arrived at a conclusion the words 'a true bill' or 'no bill' are written on the back of the indictment and signed by your foreman. Where there are different counts in an indictment you may find 'a true bill' on one count, although you are not able to do so on another. Having found a 'true bill' or 'no bill' you may return into the court and present it.

"According to the oath which you have taken, anything transpiring in the Grand Jury room in connection with your duties must be kept strictly secret. The law now is that any person who attempts to bribe or intimidate any witness or jurymen from giving his evidence or doing his duty, and any witness or jurymen who accepts a bribe is liable to two years imprisonment.

"I think these are all the instructions I need give you in reference to the discharge of your duties, but I can

which is daily growing more important. Rich in minerals and of vast timber and lumbering resources it is not only becoming the most important district in the province, but it is assisting more in increasing its revenues than many of the older countries. Its future depends in a large measure upon those who at present are residents of it, by their own energies and interests in their homes and property, showing to others the advantages gained not only to themselves, but to the whole province by the opening up and further settlement of the district.

"I will now, gentlemen, leave you to your labors. You are at liberty to visit the gaol, hospital and other public buildings and report thereon as you deem fit."

## Your Friends Will Tell You.

That we are in a position to supply you with fresh and pure things, all of which are of standard strength. Accurate and scientific filling of physicians' prescriptions has our special attention.

See our stock of perfumes, atomizers, brushes, combs and sponges. Paine's Cherry Compound is specially recommended to you for cleansing and purifying the blood. It braces the nerves, builds up flesh and muscle, and establishes permanent health. Test the virtues of one bottle of Paine's Cherry Compound, J. Werner, Drug gist, Scovill block, Rat Portage, Ont.

## Anglo-Canadian Gold Estates.

Alan Sullivan of the Anglo-Canadian Gold Estates, returned Saturday from his trip to London, England, where he met the shareholders of his company, and completed arrangements for the active prosecution of the work of the company in this district. He left this week with a gang of 12 prospectors for the Deer Lake district, who will thoroughly prospect in that region and also in other parts on the Lake of the Woods. Work on the Reliance mine, which is the first property the company has developed, will be continued with their usual vigor. A 10-stamp mill will be erected on the pro-

# Ontario's Great 'Homestake'

Developments are  
proving that our  
values are increas-  
ing with depth...

WHEN WE BEGAN THE SALE OF THESE  
SHARES we told the people what we expected.

## WE ARE GETTING IT.

St. Paul people who visited this property recently say it is a great property.

Early investors were fortunate in securing these shares.

The time is coming when there will not be a share offered for sale.

We have a clean investment where the element of risk has been brought down to a minimum. We do not promise unreasonable dividends, but just a plain business proposition. Our values are higher than any of the great low-grade mines of the world that are paying immense dividends. Our deposit is positively the largest body of free-milling ore ever discovered. We are offering the safest and cleanest mining proposition that is being sold to-day.

We have a few thousand shares for sale at 15 cents per share, 3 cents per share cash with the order, and 2 cents per share per month until paid.

Five per cent. off if half cash is sent with the order and 10 per cent. off for all cash.

We invite investors to call at our office and secure the names of the parties who visited this great property.

## BOARD OF DIRECTORS:

Cyrus Wellington, C. D. Pruden, Fred J. Bowden,  
John W. Nelson, Ronald Stewart, T. E. Birbeck.

ies charged when committing them, and you have to see that inflicting and proper justice is meted out in every case brought before you. You are sworn not to present any one through envy, hatred or malice, or to leave any one unpresented through fear, favor or affection."

"Persons charged with offences are amply protected against a wrongful or erroneous conviction."

"The principal object of criminal prosecution is to promote the happiness and security of the people in general, and not to obtain mere private redress, and it is for this reason that the Queen, who represents the whole community, is the prosecutor of every public offence, and that the duty of administering the criminal law, of prosecuting criminals in her name, and of supplying the necessary monies, has been imposed upon the governments in the various provinces of the Dominion. For the same reason, the Queen alone, through the Governor-General, has the right and power to conduct criminal offences. But in order to put the criminal law in motion it is necessary when a crime has been committed that it should be brought to the knowledge of the functionaries primarily entrusted with the enforcement of the law. The initiation of the proceedings is, therefore, an offender to justice; therefore, necessarily rests with private individuals, with the person who is injured, or affected by the crime that has been committed, or with someone who knows a sound reasonable ground for believing that a particular person has committed a crime. Such a person is a private prosecutor, and he prosecutes, or by denouncing the offender, causes the officers of the Crown, or the Government, to take action before the courts."

## COULDN'T LACE HIS BOOTS.

Mr. P. L. Campbell, of Fortune Bridge, P.E.I., a great sufferer from pain in the back.

Doan's Kidney Pills completely and permanently cured him.

Mr. P. L. Campbell, well known generally in the Fortune Bridge, P.E.I., and in the surrounding district, writes: "I was afflicted for some time with a very bad back and legs. Some mornings these pains were so severe that I couldn't stoop to lace my boots. I started taking Doan's Kidney Pills, and one box so completely cured me that I have been perfectly well for over a year now and free from the least trace of pain."

presence of the crime in the district. "At the present time I am informed by the sheriff that there is only one person in jail awaiting trial, who I am sorry to say is a young man just starting out on the sea of life, who is accused of theft. You all have an idea what constitutes the crime of theft. It is defined in the Criminal Code as the act of fraudulently and without color of right taking, or fraudulently and without color of right converting to the use of any person anything capable of being stolen, with intent. 1. To deprive the owner or any person having any special property or interest therein, temporarily or absolutely of such property or interest; or 2. To pledge the same or deposit it as security; 3. To part with it under a condition as to its return, which the person parting with it may be unable to perform; or 4. To deal with it in such a manner that it cannot be restored in the event it was at the time of such taking or converting. The taking or conversion may be fraudulent although effected without secrecy or concealment. It is immaterial whether the thing converted was taken for the purpose of conversion or whether it was at the time of the conversion in the lawful possession of the person converting it."

This definition shows clearly enough what constitutes the offense, and does not require any further explanation by me. The particulars of the case to come before you is one in which Frederick Henry, holding a position of trust in the Hudson Bay Company stores at Fort Frances, is accused of having on several occasions fraudulently retained money which had been received by him from goods sold by him belonging to the company while in their employ. I understand there are five charges to be preferred against him, and it will be your duty after hearing the evidence which will be brought before you by the Crown to decide whether or not you think there is sufficient to place him on his trial before a jury or not. There are also two other matters on which the accused parties are now on oath which will come before you, one of which is wherein one Raymond Kershaw, resident of this town, is charged with having received stolen property, knowing the same to have been stolen. It appears by the depositions that certain brasses were stolen from the Rat Portage Lumber Co. and sold by the thief to the accused. It will be for you to consider whether the evidence adduced to you by the Crown is sufficient for, in your opinion, place the accused on his trial for the offense charged on him. The other case is one in which one Charles Alcock, also a resident of the town, is accused of wilfully pulling down and demolishing a stable subject to a mortgage held by the Ontario Permanent Building Loan Association."

secret. The law now is that any person who attempts to bribe or intimidate any witness or jurymen from giving his evidence or doing his duty, and any witness or jurymen who accepts a bribe is liable to two years imprisonment.

"I think these are all the instructions I need give you in reference to the discharge of your duties, but I cannot conclude my remarks to you without referring to and giving expression to the feeling of satisfaction and pride that is stirring us all so deeply just now as we hear of the successes of the British army in South Africa and of the credit that our own Canadian soldiers are winning for themselves and for the Dominion by their distinguished gallantry. The decision of the Government to send troops from Canada to take part in the war was an event of very great moment in the nation's history, but there is no doubt but that the decision has met with the strong and earnest approval of the mass of the people of Canada. Great Britain we believe was forced into the war, not merely to redress the grievances of her subjects in the Transvaal, but to maintain the supremacy of the very existence of the Empire in South Africa, and the interests of the Empire being at stake we felt it our duty as well as our privilege, practically to show our loyalty and devotion to our Queen and her Empire by sending a Canadian force to fight side by side with the Imperial troops and those from the other colonies. We expected nothing else but what our soldiers would do themselves and their country credit and would be found no unworthy companions of the British regiments along with whom they have been fighting. We have not been disappointed, but the bravery of our men has cost them dearly, and from one side of the Dominion to the other many are now sorrowing for those belonging to them who will not return. These friends, however, have the satisfaction of knowing they died a soldier's death and willingly gave their lives for their Queen and country in defending the freedom and liberty so dear to Britons."

We all fervently hope and have good reason to believe that the war will soon be brought to a successful end, and that it will result in establishing the supremacy of the Empire through all South Africa, and if it has this result we know that the highest interests of civilization and humanity will be advanced and that the sacrifices which have been made will not have been made in vain. One result that cannot fail to follow from the war, will be that the great colonies of the Empire will be bound more closely to the mother land and to one another. "And while speaking of the unity of the Empire permit me to urge unity of purpose and interest in our own district. We have a new district

work of the company in this district. He left this week with a gang of 12 prospectors for the Deer Lake district, who will thoroughly prospect in that region and also in other parts on the Lake of the Woods. Work on the Reliance mine, which is the first property the company has developed, will be continued with their usual vigor. A 10-stamp mill is erected on the property in the near future, and with the excellent assay values returned and the proven permanence of the vein, it should produce good returns."

## STATEMENTS

That Command Attention and Inspire Hope.

## Paine's Celery Compound

The Never-Disappointing Banisher of Sickness and Disease.

The statement that Paine's Celery Compound builds up sickly, weak and run-down people is true in every particular. It is also true that Paine's Celery Compound is the only medicine in the world that can successfully grapple with obstinate and long-standing cases of disease and give to suffering people active limbs, pure blood, clear complexion, healthy appetite and perfect digestion. Scores of able and reliable physicians, prominent druggists, legislators, merchants and leaders in society can bear testimony to the wonderful cures wrought by Paine's Celery Compound during the past spring months.

Such facts and statements should be sufficient to convince all doubting and despondent sufferers, and inspire them with a determination to test the world's great health-giver. Mr. C. M. W. Ross, Department of Railways and Canal, Ottawa, writes thus:

"For a long period of time I suffered from the pains and tortures of neuralgia, and the effects to my general system were so serious and alarming that my doctor ordered an ocean trip. I went to England at considerable expense, but had to return to Canada almost as badly as when I left it. After getting home I determined to commence the use of Paine's Celery Compound, as it was strongly recommended for such troubles. After using the medicine for a short time the results were most pleasing and gratifying. The attacks became less frequent and less severe, and soon the whole trouble was completely banished. I have not experienced a pain or ache for months. I take great pleasure in recommending such a marvellous medicine to all neuralgic sufferers. Paine's Celery Compound has astonishing virtuous powers, and will certainly overcome any form of neuralgia."

We invite investors to call at our office and secure the names of the parties who visited this great property.

## VIRTUE OF PATIENCE

The Rev. W. M. Rochester Most  
Eloquently Illustrates the  
Above Theme.

The following is a synopsis of the sermon delivered in Knox church last Sunday night:

Patience is a virtue is an old, old, old, and most true saying. And yet, while true, this saying does not give us the whole truth. Mere patience is not the whole truth. It is a virtue of the highest order. Patience brings to us in power, influence, success, and blessing. All that is noblest in character is the fruit of patience. The greatest attainment, and the richest of possessions come to man by the exercise of this grace. The moral grandeur of Jesus appears to us in the most significant when we read, "Who, when He was reviled, reviled not again; when He suffered, He threatened not; but committed Himself to Him that judgeth righteously." A life of patience is a life of holiness. It is a life of control. It is a life of many things, which God has commanded, as an infirmity. To be patient, to them, is to be weak. There is a perversion somewhere when this condition is reached. "Be patient" is synonymous to be strong, not weak; to be great, not feeble.

Patience may be defined variously according to the field in which it is exercised. It may be self-control in the face of provocation, endurance of trouble without complaint, waiting with confidence and good cheer for the fulfillment of promise, or work without weariness. Collectively it may be said to be, the submission with patience to God in all the sore discipline of life. It is essential to remind ourselves again and again that patience may mean long endurance. The thought of James in the passage under review has been put in these words, "Suffer with long patience, therefore, my brethren." He has in another and truer part of his letter taught us that patience must have her perfect work. We must guard against surrender. It may mean the loss of all. The process of discipline must not be interrupted. The time element in the formation of character and attainment of the most important and general principle of the longer time is needed. The patient must not too soon take his ease from the fire, nor the sufferer give up his search. The labor of months and years may be lost by impatience. Let patience have her perfect work done, so may be perfect and entire, waiting nothing. "To them who by patient continuance in well-doing seek glory, honor and immortality, will God give eternal life." "The husbandman hath long patience for the precious fruit of the earth." Shall we

destiny in view for us all. But more, we are in the hands of love. In perfecting His people God will not use means unnecessarily harsh, nor will He subject us to discipline beyond the time. "Take as a father pleases his children so the Lord pitieth them that fear Him. For He knoweth our frame. He remembereth that we are dust. Since God is good and His tender mercies are over all His works, let us obey His voice. Submit to His will, learn the message of His servant. Be patient, therefore, brethren. We have learned submission when with good Richard Baxter racked with pain we can say, "Lord, when Thou wilt, what Thou wilt, how Thou wilt."

## When It Hurts to Cough

The cough that hurts, the cough that gets tight in the chest, the cough that gets deeper and deeper into the bronchial tubes and is sticking directly for the lungs, to become pneumonia, influenza or one of the large lung consumption. Such coughs yield only to the wonderful efficiency of Dr. Cass's Syrup of Licorice and Turpentine, which loosens the tightness and soothes the inflamed throat. It comes in 50 cent and 1 dollar bottles. Family size 50 cent bottle everywhere.

## DAZED ENGLAND WITH AN AD

Other Feats of Its Author, Who is Still Living in Poughkeepsie.

Some of the nabobs of the present day advertising world who think they are "the only pebbles on the beach" are to take a trip down to Poughkeepsie and listen to the advertising practices of an old man there may relate to them. And the old man can substantiate his narratives with facts and proofs and is not a new-farm spinner, like many of his degenerate successors. His name is De Quincey Wing, and years ago he won for himself the title of "progenitor of liberal advertising" by his extensive advertising of a famous brand of flour of which he was the proprietor, the Julian mills flour.

It is said that at one time he was worth \$50,000,000, but lost his fortune partly by speculation in buying news papers.

One of Mr. Wing's greatest advertising feats was the insertion in the London Times, much to the surprise of the slow-going Britons, of a full-page advertisement of his famous brand of flour. It was claimed by a book that Mr. Wing, who alone had the secret and the patent for the manufacture of the Julian mills flour, introduced the ingredients of a moistening of alcohol and hops that gave a piquancy upon which many a family was daily exhilarated every morning at breakfast, and he had as a part of his business accounts a letter from Lord Palmerston, prime minister of England, in which the latter expresses the thanks of Queen Victoria and her ministry for bags of his flour, because, as the minister said, of its elevating effects at each meal.

In the advertisement in the London

## NOT SO GREEN.

The Sarcastic Conductor Got as Good as He Gave.

Of course the street car conductors have to undergo a great many trials and tribulations, and they may be excused once in awhile for showing impatience. But they have no excuse for being sarcastic, and the conductor on the North Twenty-fourth street line the other day received a setback that he will not soon forget.

One of our country cousins, a young man, rather shabbily dressed and evidently unused to Omaha, was standing upon the rear platform of the car. He addressed several questions to the conductor, who answered them rather shortly. Finally our country cousin asked:

"Can you tell me where Blank's grocery store is?"

"Yes, Sixteenth, between Capitol avenue and Davenport," answered the conductor shortly.

"Do you know Mr. Blank?" asked the cousin.

"Yes, I know him well. If I had time, I'd take you over and introduce you," was the sarcastic conductor's reply as he winked at the other passengers.

"No, I guess not," said our cousin. "I'm going to strike him for a job and I'd hate to make a bad impression right at the start."

Whereupon the passengers on the platform laughed, and the conductor hastened forward to collect a fare.—Omaha World-Herald.

## Cause and Effect.

Mrs. Timmins—We've got to move farther out from the business center of the town; that's settled. My husband isn't able to keep pace with current events at all.

Mrs. Pugsley—I don't see how he would be able to keep informed upon the affairs of the world any better if you were to move farther out.

Mrs. Timmins—Why, it's plain enough. As it is, he has only time to read the sporting page while on his way down to the office in the mornings. By increasing the distance he might get a chance to look at something else once in awhile.—Nuggets.

## A Dress Suit Case.

"By the way, Jack," said the young lady who had been visiting in the city, "I was that man I just bowed to. I've met so many people since I've been here, and I never was much of a success at remembering faces."

"Don't thank I noticed him, dear. Where is he?"

"Over there standing on the corner."

"That," said Jack, glancing at a fine featured, well-dressed young man, "is the head waiter at the cafe where we dined last night."—Detroit Free Press.

## Always Ready.

We are always ready and prepared to cater to your wants and requirements. Our stock of pure drugs is very complete, enabling us to fill without delay any order from your doctor.

Our stock of toilet requisites is unsurpassed in variety, quality and prices.

Are you using Paine's Celery Compound, nature's great remedy for the cure of rheumatism, neuralgia, nervous diseases, diabetes and liver troubles? If you have not given Paine's Celery Compound a trial for your failing health, do so at once; we recommend it. Johnson's Pharmacy, Rat Portage, Ont.

## Lineal Descendants.

"Pa, what is a lineal descendant?" "A lineal descendant is a person who has to fall back on some praiseworthy ancestor for his own importance."—Detroit Free Press.

## Where Advertising Fails.

Editor—Can't I get you to advertise with us?

Undertaker—What's the good? The people I do business with can't read.—Brooklyn Life.

## Bill Grimes.

When war was first declared, Bill Grimes he moaned most all the time. "I wisht," says he, "oh, how I wisht that I was in my prime!" He wa'n't no more'n forty, but jus' 'at the bugles call.

He got the rheumatiz so bad he sca'ce could move'n all. "Them bugles make the old blood go right through my veins by jumps!" "I wisht, oh, how I wisht," says he, "that I could stir my stumps!"

All through the war he fussed aroun with liniments an' pills. His body the abidin place of all the human filth.

His voice it was effected, too, for it was said an' low. "If they should want more men," says he, "I couldn't git to go!"

It's tough," says he, "but rheumatiz has filled me full of bumps!" "I wisht, oh, how I wisht," says he, "that I could stir my stumps!"

When war was done, at last Bill Grimes got well so mighty quick. You never would believe it if he told you he'd been sick.

He threw away his crutches an' his liniment an' pills. An' never said a word at all about his awful ills.

An when the soldier boys came home he cheered an' called them tramps. "I tried," says he, "to join 'em, boys, but couldn't get my stumps!"

But shortly after this a change it seemed to strike Bill Grimes. In polit' s he gits an' drinks the spirit of the times.

A friend of Bill's fer office runs against a soldier chap.

An you just ought to hear Bill talk an' yell an' swing his cap!

"The war," says he, "was all a trick to make a few men git out."

Bill couldn't stir his stumps fer war, but he can stump the state!

—Baltimore American

## Slater Shoe Leathers

The output of "Slater Shoes" is so large that the makers are able to control their own tanning in most leathers.

"Carnack Calf" made from the best selected calfskins, in black, light, and medium tanned and brown.

"Kidblack" is black and I seal brown, from selected Patna goatskins. Both leathers are wear and a wider resting persons and therefore sanitary.

There are also "Best French Patent" "French Patent," "Teer Russta" and "American Wax Calf."

Slater Shoe Leathers daily should be used in the tanning, retains their elasticity and keeps them soft.

The sole leather is the best obtainable and on every sole is the makers' name and price in a state frame when the finished shoe has passed its rigorous examination.

RAT PORTAGE, ONT. JUNE 8, 1900.

## FROM FAR BLOEMFONTEIN.

An interesting letter from our Correspondent at the Front.

We have received another letter from H. A. Hodgins, one of Rat Portage's representatives at the front. It is dated at Bloemfontein just prior to the advance to Pretoria. It is quite likely he is with the first contingent and would take part in the capture of Johannesburg and Pretoria.

Bloemfontein, May 3.

Orders are issued suddenly, a number of times, at least they are to us. Thursday last at 11 a.m., while we were lying in front of a drizzle, a dispatch came ordering the R.C.R. Canadians to proceed to front by train to Bloemfontein at 3.45 p.m. As soon as report was read by Capt. C. G. all were out and a rushing "hurry" given as all were anxious for a look to the front. Orders were then given to prepare and pack kits, etc. The following is considered as heavy marching order, and I should say it is heavy: Rubber sheet, blanket, spare suit of khaki, extra suit of underclothes, top shirt, spare socks, toiletries, soap, great coat, canvas shoes, holdall containing knife, fork, spoon, tin, soap, towel, comb, brush, sewing needles, thread, buttons, etc., and bandolier holding 100 rounds of ammunition, rifle, bayonet, belt, pouch, canteen, water bottle, haversack, and three days' provisions including 15 hardtack biscuits and can of bully beef, weighing, all told, 100 lbs.

We have done no real heavy marching with above outfit as yet, but will start on a 15 mile march this afternoon. We will in all probability be allowed to put some of our stuff in transport wagons when we come up to our regiment, which is said to be about 45 miles from here. We were from Thursday evening till Sunday at 10 p.m. reaching Bloemfontein. All along the route of travel were stationed

just come into camp with a number of horses captured from the enemy, and will be used as remounts for troops. H Company R.C.R., first contingent, are camped about 45 miles from here. Fisher's Point, to which we march today, in fact may be ordered to turn out in 10 minutes' time, as no one is allowed to leave camp.

All of the first contingent seem to be tired and sick of warfare now, and wish they were safely in Canada again. Fighting is going on in all directions, and we may be in the firing line in a couple of days. The signal guns can be heard here, and the signal lights can be seen at night. There seems to be a couple of factories of some kind here as I can see the large chimneys, but as we are not allowed out, no information can be had in reference to the town itself. It looks a pretty place from camp. We are now about a mile and a half from it. All are in good health, though we lost one man named Bailey, of Toronto, at Cape Town, he having the mumps. Our officers are just coming toward us and I expect we will have to move. Strachan's Horse is expected to follow us in a day or two. Orders are issued now to get ready.

We had just to get ready, we were in all shapes, to be inspected by the field officer of the force. Nothing to do but remain in camp. All the boys are busy writing letters. Hundreds of transport wagons are coming and going heavily laden with supplies for the troops at the firing line. The wagons are drawn by oxen, driven by two men. A great many Kaffirs are built around here, some of brush and mud, others of stone or tin sides and roof.

Pretoria is about 30 miles from here and it is expected a general advance will be ordered by Wednesday by Lord Roberts, who is here at Bloemfontein. In fact it is hard to say anything in reference to what will be done or what is done unless one is right there. We are now informed that the R.C.R. is expected in today and that we will be issued with woolen khaki in a day or two. Next letter I think may be telling you how the battle was won. Regards to

H. A. Hodgins

Private R.C.R.

## CHAMPION MINE

For beauty and nobleness of situation there is no mine in the district can surpass the Champion, now being operated by the Buffalo Mining Co. It is only about 20 miles from Rat Portage and within a mile of the Canadian Pacific railway, a circumstance which will have a big effect on the economical working of the mine.

## What Mining Will Do.

The Mining Investor, of St. Paul, for June will say, "It takes wealth to build a town and though some people are terribly scared when the subject of mining is broached to them, yet the industry of mining, and we are prepared to say gold mining, has built large cities in the most remote corners of the globe and upon the most barren ground. Other cities and towns that were surrounded with rich agricultural lands still struggling for an existence were brought out of the dumps by the fortunate development of the mining industry. Lead City, S.D., which is now claimed to be one of the most prosperous enterprising towns in South Dakota, owes her prosperity to the Homestake Gold mining company. Just one company is paying out to their employees \$200,000 each and every month. This is the wealth that builds a town. True, any manufacturing concern could pay out even more, but failures, overproduction, panics, strikes and all other uncertainties that go with industrial life, and the difficulties of marketing the finished product and turning it into money has the effect of checking the growth and continuous prosperity of any town.

We are prepared to say that in no other line of business is the continued success and development of any town or city so absolutely certain as that which is obtained through the development of the mining industry. For instance, the little city of Lead was almost completely destroyed by fire last March, but today, magnificent stone and brick business blocks are taking the place of the structures which were swept away in the early development of the mining industry in South Dakota. Everything is prosperous and no idle men are in Lead today. When the time comes, when a certain amount of the combined payrolls of the best paying mines now operating in the district of Rat Portage, Ont., are equal to the amount being paid by the Homestake company, then will the development of the long desired dream of the earnest and plucky worker who have throughout the past five years, eked out an existence and had to wait they know would eventually prove to be the goldiest, safest and most profitable gold mining camp ever discovered.

The continuous payment of this amount of wealth into any city is certain to gradually increase the wealth of the city without limit. Owing to the scarcity of development capital the growth and progress of this new mining town has been slow, but now that the world is beginning to recognize that Ontario possesses all of the

THE DISTRICT COURT.

The driver was not competent, that the horses were too light for the conveyance, and that the harness was not complete. After an absence of 4 hours the jury brought in a verdict for defendant. T. R. Ferguson and C. A. S. Boddy for defendant, Boyce & Draper for defendant.

Queen v. Henry—A charge of theft preferred against one A. J. Henry, a clerk in the employment of the Hudson's Bay Co. at Fort Frances, charging defendant while acting as clerk of dealing on the 17th day of February 1912, and on the 19th day of March 1912, being the proceeds of the sales of certain goods made by him in the days mentioned. The evidence on the part of the crown showed clearly the shortage of the amounts on the dates mentioned, but the defence contended that the prisoner was not responsible for the same but that it was either a mistake in bookkeeping or the loss occurred in another way. The jury found the prisoner not guilty. H. Esford for the Crown; H. M. Howell and A. C. Boyce for prisoner.

Queen v. Henry—The prisoner was in prison on trial charge with theft from the Hudson's Bay Co. upon a subsequent occasion. From the evidence on behalf of the Crown it appears that the manager of the H. B. Co. having suspected the prisoner of stealing caused to be employed a detective who adopted the plan of making purchases at the store by a prisoner, paying him with marked bills. He claimed that prisoner did not recall the sales in the store, and accounted for part of the money, and that after he had been arrested some of the marked bills were found in his possession. It was contended on the part of the prisoner that there were bills of different issues of the same number and that the bills in prisoner's possession were not paid him by the detective. The jury after a long deliberation came into court with a verdict of not guilty. H. Esford being polled by the Crown it was ascertained that one of the jurymen was in favor of a verdict of guilty. The jury not being unanimous the verdict could be given and the prisoner was to have to be tried again.

Vernon v. Dumas—Action on promissory note given by defendant Oliver Dumas and endorsed over to plaintiff. Defence was that there was no consideration on the note. Judgment in favor of plaintiff for full amount. Munson Q. C. A. Winnipeg and J. F. McGillivray for plaintiff; Boyce & Draper for defendant.

Seegmiller v. Campbell.  
Miss Mary Alexander Campbell and Mr. Melville Seegmiller were united in the bonds of holy matrimony at 9 p.m. at the residence of the bride's father, Mr. Seegmiller, in the city of Winnipeg, on the 6th inst. The ceremony was performed by Rev. J. J. O'Connell, assisted by Rev. J. J. O'Connell, and the bride and groom were accompanied by a large number of friends.

McDonnell v. Appell. This action is one brought by the plaintiff against the defendant for illegal prosecution and arrest. The parties are neighbors and the defendant having lost some

## THE NEWS FROM NORMAN.

The new bridge over the railroad has been completed, it is four feet wider than the old one so that teams can now pass one another on it.

Capt. Johnson launched his new boat the Irene on Saturday, and has already shown her speed to a few of the swift crafts.

Quite a few people from Norman attended the C. E. meeting at Keewatin, where the reports of the convention at Winnipeg were given.

Dan McKenzie arrived last Saturday from a prospecting trip through Cross Lake and Lake of the Woods. He reports having several very good finds.

We wish to call the attention of the Citizens' Telephone and Electric Co. to fire alarm box at Norman. The Doukebores have been using it for a letter box, and have pried the door open probably to see if there were any letters from home.

The ti-mill started to run on Monday and have loaded quite a few cars. Mr. George Greer is visiting Mr. Jas. Little.

Mr. Jos. Desileet met with a serious accident at Mill No. 4 on Thursday. While attempting to start a plank which had stopped, he slipped and fell striking his back on the roller.

The chimney sweep paid the westward visit on Thursday.

The rogan was over Thursday and the small boys could be seen with bags of rags etc., running around the backyards in search of rags, bones and iron.

## With the Mining Public

F. C. Pegg, of the Mikado mine, left Saturday evening for England. He will be absent a couple of months.

Mr. and Mrs. J. R. Gifford arrived Saturday morning from British Columbia. Mr. Gifford was in charge of the big Hall mines at Nelson, which have lately been temporarily closed on account of labor troubles. He has been absent from Rat Portage since last summer, and states that has not yet seen a town which is more attractive to him than Rat Portage.

John Dean, of the Hamilton Powder Company, has been given charge of the Winnipeg branch of his firm, and now all the business of the company from Lake Superior to the Rockies will be transacted from the Rat Portage office. We congratulate Mr. Dean on this advancement and the town on being recognized as a supply depot for the west.

S. Mitchell has just returned from a trip to eastern points where he has

values is lost. This loss has been going on for twenty years and millions of dollars in gold have been carried down the creek and it has been deposited in the shape of concentrates, which have been shoveled out in many places by miners and sold to the smelter for about \$12 per ton. The Homestake Company expects to be able to save about \$1.25 out of the \$1.50 waste. This will make a saving of something like \$1,500 per day, and outside of the expense of running the plant there will be about \$1,200 per day clear profit, which will more than pay for the first cost of the cyanide plant the first year. The plant will give employment to a large force of men.

### Mikado Bricks.

Manager McMillan of the Mikado mine, this week brought in the result of the May crushing. The value of the bricks is about the usual monthly run, \$14,000.

### India Famine Fund.

Mr. Rochester makes the following statement regarding subscription from Rat Portage to the India Famine Fund. Previously acknowledged.....\$170.55  
A Friend.....5.00  
Rat Portage Lumber Co.....100.00  
Total.....\$275.55

### Editorial Excursion.

E. A. Nelson, secretary of the Northwestern Press Association of Minnesota, was here Saturday last completing arrangements regarding their excursion, which will arrive here next Wednesday. The editors will go as far as Barcherville, and on their return to Rat Portage they will be entertained by the Board of Trade, a trip being planned to the Sultana.

### The Leona Mines.

We have received a copy of the preliminary prospectus of the Standard Gold Mining Co. from their office, 35 Broadway, New York. This company has been organized to work the Leona mines situated about 25 miles from Rat Portage. The properties are known as DKS, McAS, DSA and J131. The company is capitalized at \$5,000,000. Frank Hodge is the general manager of the company at Rat Portage.

### Rowing Club.

The helony for the members is nearly completed and the new lockers have been installed. The practice boat was moved in the week, but a new one is being rushed here as quickly as possible. The crews have picked out and an old member assigned to each stroke. This will give the green oarsmen better practice and will put them into shape for racing when the new boat finally arrives. The new boat will surely be here by the 20th, so that will give ample time for racing before the first of July.

grade mines fail to meet the expectations of the owners."

The directors, after referring to failure to operate the 10-stamp mill, while the mill construction was in progress and the deficiency in boiler capacity, say:

"This, with the general slump in stocks, has made it inadvisable to sell treasury stock, and the liabilities have been met by the personal security of three of the shareholders. These liabilities amount to about \$20,000. It will be necessary to take measures for removing this liability and for carrying on the deepening of the shaft with all possible speed."

These measures take the form of an offer to let the present shareholders of the Olive purchase one hundred thousand shares of treasury stock at 25 cents a share. It is not desirable that this should be offered to the general public at the low rate prevailing, but that the shareholders should have the opportunity of purchasing at a price far below its intrinsic value, thus equalizing their present holdings and obtaining a valuable stock at a low rate.—Commercial.

one secured a new trial, however, and the action has been entered in this for trial again. Upon motion on behalf of the plaintiff the trial was postponed until the December sittings, owing to the absence of a material witness. Boyce & Draper for plaintiff; McLennan for defendants.

**McDonnell v. Appell.** This action is brought by the plaintiff against a defendant for illegal prosecution and arrest. The parties are neighbors and the defendant having lost some ducks and chickens laid an information against the plaintiff and caused him to be brought before the magistrates who after hearing the evidence discharged him. The plaintiff now brings this action for damages for the injury to his reputation. The case was tried before a jury who returned a verdict for the plaintiff. Boyce & Draper for plaintiff; Langdon & Macdonald for defendant.

Oliver Duann and another, against the defendant, and states that he has not yet seen a town which is more attractive to him than Rat Portage.

John Dean, of the Hamilton Powder Company, has been given charge of the Winnipeg branch of his firm, and now all the business of the company from Lake Superior to the Rockies will be transacted from the Rat Portage office. We congratulate Mr. Dean on this advancement, and the town on being recognized as a supply depot for the west.

S. Mitchell has just returned from a trip to eastern points where he has been endeavoring to create an interest in western Ontario in gold mines. He visited Toronto, Buffalo, Cleveland, Montreal and other cities and was very much surprised to learn how little was known of this mining country in those places. He had some samples of ore which he left on exhibition. He left some in a jewelry store and the jeweler said the crowd attracted by them was larger than he had around his windows. Christmas, Mr. Mitchell said the specimens are what do the most toward advertising the district and thinks all available should be sent out where they will do the most good. If he had had more specimens he would have made a more extended tour.

A rich find of gold is reported on one of the islands in Lake Winnipeg. It is an alluvial deposit, and in some of the creeks on the island, gold has been washed from the sand. Some quartz specimens produced are particularly rich.

Wm. Caldwell has been inspecting some mining locations this week.

Mr. Neil Campbell is gradually recovering from his long illness and was able to leave this week.

N. B. Hall, manager of the Olive mine, arrived from Mine Centre Wednesday.

**Homestake Cyanide Plant.** Black Hills Mining Review May 21. The foundation of the great Homestake cyanide plant at Lead is about half completed. The ground measures 500 feet by 342 feet east and west and 100 feet north. It will be the largest cyanide plant in the world. The capacity, when crowded to its full extent, will be about 1,200 tons per day. The tailings which come from the stamp mills now, retain about \$1.50 in gold. All of the creek water that passes through Deadwood, which is so black in color, carries in its current thousands of dollars' worth of gold, which has escaped from the plates in the Homestake mills. It is for the purpose of catching this waste gold that the Homestake company is erecting a cyanide plant. The reason that the gold escapes and is not caught by the quicksilver at the mills, is that the ore is becoming more refractory as depth is attained in the mine.

By refractory is meant that the little particles of gold are coated with a substance, usually a sulphide, which prevents the gold from attaching itself to the quicksilver, which is covered over the copper plates. The gold passes on with the tailings. A large percent of it is caught by a system of concentrating tables and jigs, yet it is estimated that \$1.50 per ton of the gold

The balcony for the members is nearly completed and the new lockers have been installed. The practice boat was destroyed in the wreck, but a new one is being rushed here as quickly as possible. The crews have picked out and an old member assigned to each as stroke. This will give the green oarsmen better practice and will put them into shape for racing when the new boat finally arrives. The new boat will surely be here by the 20th, so that will give ample time for racing before the first of July.

**Surprised.** "I never saw anything more remarkable," said the young man who claims to have spent a great deal of time abroad, "than a little scene I witnessed in Spain. A passenger on one of the cars became obstreperous and behaved with the utmost disregard of propriety. But the conductor didn't pay the slightest attention to him."

"I don't see anything very wonderful in that."

"It's the only case on record where a Spaniard overlooked a good chance to put something off."

Farmer—I don't see how we're to get along this winter; no money in anything.  
Wife—What's the matter?  
Farmer—The market is glutted and I can't get any price at all. Hardly pays to send things to town.  
Townsmen—What under the sun becomes of our money?  
Wife—It all goes for provisions. Every crop has failed and prices are sky high.

**Reports on the Olive.**  
The reports of the superintendent and directors of the Olive mine, which have recently been made public, throw a great deal of light on the management of the property. W. B. Hall, the superintendent, in his report, says:

"We have about arrived at a point in the history of the Olive mine where I think it can be worked with economy and profit to all parties concerned. With sufficient boiler power, so that we could keep the 25 stamps running all the time, we could take out and treat enough ore each month to pay a small margin of profit over and above expense. Not under the present condition of affairs can anyone pay the excessive rates of transportation on machinery and supplies, do the work with the unskilled labor (the only attainable) at the high rate of wages paid, and make a low-grade proposition pay, and in many instances high

WE have received a new stock of BICYCLES they are at the disposal of the public either for sale or rent; also repairing done to satisfaction. E. R. Matheson, 1st street, just over the bridge.

**SITUATION WANTED.** By a competent and experienced man; desires a position as the construction foreman; references furnished. Address S. A. McVern, Barre, Vt.

**FOR SALE.** A lot of splendid Gasoline Boats, in good condition. I have decided to give up my position on the C.P.R. in the boating business. I have decided to stick to the C.P.R. J. R. Bunn, manager of the Hudson's Bay store has kindly consented to sell the boats for me. So intending purchasers will do well to see Mr. Bunn before purchasing elsewhere. L. E. McBRATH, Proprietor.

**MISS FISHER**  
**Stenographer**  
Farmer—I don't see how we're to get along this winter; no money in anything.  
Wife—What's the matter?  
Farmer—The market is glutted and I can't get any price at all. Hardly pays to send things to town.  
Townsmen—What under the sun becomes of our money?  
Wife—It all goes for provisions. Every crop has failed and prices are sky high.

**Reports on the Olive.**  
The reports of the superintendent and directors of the Olive mine, which have recently been made public, throw a great deal of light on the management of the property. W. B. Hall, the superintendent, in his report, says:

"We have about arrived at a point in the history of the Olive mine where I think it can be worked with economy and profit to all parties concerned. With sufficient boiler power, so that we could keep the 25 stamps running all the time, we could take out and treat enough ore each month to pay a small margin of profit over and above expense. Not under the present condition of affairs can anyone pay the excessive rates of transportation on machinery and supplies, do the work with the unskilled labor (the only attainable) at the high rate of wages paid, and make a low-grade proposition pay, and in many instances high

## Lakeside Bakery.

## BREVITIES

### PERSONAL CHATS.

Among this year's Princeton students is Kim Beung Sorb, a graduate of Fitch College, the first Korean to take a B. A. degree.

Captain Robert M. Wagstaff, who died in Detroit recently, was a sailor on the first boat carrying gold seekers around the Horn in 1849.

Ned Glover, a former slave, lived with his wife and 95 descendants upon the plantation in Twiggs county, Ga., where he was born 56 years ago.

George Julian Zolna, the sculptor, has completed his bust of Edgar Allan Poe, and it will be placed in the library of the University of Virginia.

Admiral Dewey says ship service is as hard on shoes as city life. "I have," he adds, "a great many pairs and never wear a pair two days in succession."

The German emperor's hobnobbing with the sultan has recalled the fact that Bismarck once said that the Turks were the only gentlemen in the whole orient.

In order to work quietly at his compositions Paderewski has been forced to lock himself up in a villa near Mont Blanc and announce that he is "not at home" to any one.

Scott Lord and Ella Devaux Lord of New York have given the 44 acres of land known as "Cockold's Delight," near the Catholic university at Washington, for a Franciscan monastery.

A friend of Colonel Waring says that upon his return to New York he said, "Well, I was afraid that job might cost my life, but I know I could clean the place, and I was bound to try."

The Grand Duke of Mecklinburg-Strelitz has just celebrated his seventy-ninth birthday. He is thus only five months younger than Queen Victoria. The king of Denmark, however, is older than either, having passed his eightieth year, while the Grand Duke of Luxembourg, the oldest of the rulers of Europe, is over 81.

David Kahnweiler, the inventor of the cork jacket life preserver, who died in New York a few days ago, lost a fortune several times and made it again by new inventions, among which were a milling machine, a metallic life raft and a cash carrier, system for use in large stores. He was born in Bavaria and was 72 years old.

President McKinley was particularly pleased with the souvenir menu card given him at the Chicago women banquet. It was filled up into book form, bound in white Russian leather, lined with white moire silk, ornamented on the cover with a miniature portrait of himself and was the work of Miss Vilette Windett, a young painter of Illinois.

### We Have the Confidence.

Of physicians and the public in the thing of prescriptions and dispensing of drugs. Our patrons are well and fully served when they visit our place. Our prescriptions are always considered.

James C. Gentry, Compound Dispensary. It has won the confidence of our patrons by its wonderful and permanent cures. We recommend Paine's Kidney Compound if you are suffering from nervous troubles, Rheumatism, Liver Complaint, Dropsy, Dyspepsia, P. B. Wines, etc.

Dr. Port and Mithras, etc. in Portage, Ont.

**Katharine's Eyes.**  
A penny novel is not a complete without the heroine having a declaration on her eyes. In the course of our "complete story" this is what she did:

"She threw her eyes up to the ceiling. Then she dropped them on the floor. Again she raised them and again she lowered them."

"She made her eyes flash fire."  
"Her eyes burned."  
"Her eyes froze."

"Her eyes glowered like burning coals."

"She cast her eyes to his chest, then dropped them to the fender."

"His eyes crossed hers and greedily devoured them."

But at last her eyes had their revenge, for we read, "Her eyes betrayed her."—Tit-Bits

**Photographing With a Fly's Eye.**  
A writer in Knowledge describes a method for mounting the eyes of a dragonfly in such a way that, with the aid of a microscope, photographs can be made through the lenses of the insect's eye. The photographs thus produced are multiple, because the eye of the dragonfly consists of a large number of minute lenses distributed over its surface, each bringing the rays of light to a focus independent of the others. In fact, every dragon fly carries in its eyes about 25,000 minute and perfect lenses, each of which, when properly manipulated, is able to produce upon a sensitive plate a photograph, microscopic in size, but sharp and distinct.

**A Sign That Never Faded.**  
A certain more than locally famous tourist—he lives on Thirteenth street—has among his chronic patients an elderly woman of wealth who is superstitious about the 9th of September.  
"Well," said she, with a sigh of relief when her unlucky day this year had passed, "I certainly am glad when the 9th of September is over. I always knew that if I live past that day I'm sure to live till another year. Oh, I'm certain of it! Why, it's a sign I've never known to fail, never!"—Washington

## DREADED MEAL TIME

### THE TURF REVIEW.

Peter the Great, 2:07 1/4, is the fastest trotter ever bred in Michigan.

Kitty R. bay mare, 2:08 3/4, pacing, by Kermis, has been thrown out of training.

Gay, 2:12, record made this year, entered the 230 list as a 3-year-old in 1902.

Wynema, 2:10 3/4, by Robert McGregor, is credited with a 2:10 trial at the trot.

M. E. McHenry is credited with having won \$27,000 with the horses he drove on the grand circuit.

Albion and Elyria are tied for the honors of the year to date. Each has seven performers to his credit.

Soundlight paced a mile in 2:02 at Indianapolis Sept. 22, but it was not a record, as he started to beat 1:59 1/2.

The race at Providence is said to have been the first one in which Charley Herr was ever behind the money.

The team Ottlinger and Jackson, owned by Jacob Justice, trotted in 2:18 1/2 at Belmont park, Philadelphia, recently.

Parley's mile in 2:10 at the recent Bethlehem fair meeting was the fastest ever paced in the state over a half mile track.

Mareus Daly has a 2-year-old colt named Joe N. by Milrod, who is said to have beaten 2:20 and shown a half at a 2:15 pace.

Billy Andrews, 2:06 1/2, by Bow Bells, won all of his races in the grand circuit, five in number, and his winnings foot up to \$6,325.

B. R. P., 2:06 1/2, by Pilot Medium, has joined the side wheelers and has paced several races in the west, but has not yet entered the list.

Another trotter named Alix has entered the list of California. She is by Nutwood Wilkes, dam a sister to Little Albert, and her record is 2:24 1/2.

The old trotter Walter E. 2:10, by Patchen Mambrino, is now owned by E. F. Swinney, Kansas City, and will be used in matinees. He is 15 years old.

### STAGE GLINTS.

Verona Jarboe returns to the stage and will play vandybelle. Miss Jarboe was a new act.

The antique furniture and quaint costumes of 50 years ago in "The Dairy Farm" contribute to the realism of the stage efforts in this pretty pastoral play.

An actress in "The Man in the Moon" in New York was discharged for the offense of holding conversation while on the stage with friends in front and in the boxes.

"Daughters of the Poor" contains a realistic rescue and shows Carrie Radcliffe as the blind girl hanging in mid air by a rope, while her pursuer, standing on the fire escape is killed by a bolt of lightning.

Frau Cosima Wagner made a hasty exit out of last night's Wagner festival at Bayreuth. American ladies when I was there and in the hair.

Milburn's Heart and Nerve Pills are just what every weak, nervous, run-down woman needs to make her strong and well.

They cure those feelings of sympathy and sinking that come on at times, make the heart beat strong and regular, give sweet, refreshing sleep and banish headaches and nervousness. They infuse new life and energy into dispirited, health-sattered women, who have come to think there is no cure for them.

Read the words of encouragement in this letter from Mrs. Thos. Sommers, Clinton, New London, P. M.:

"Last fall I was in a very serious condition suffering from nervousness and weakness, I got so bad that I could hardly move around, and despaired of ever getting well. Seeing Milburn's Heart and Nerve Pills highly recommended for such conditions I purchased a box.

"Before I had taken half of it I could notice an improvement in my condition, and when I had used two boxes I was completely cured.

"It was wonderful how these pills took away that dreadful feeling of nervousness and gave me strength.

"I recommended them to my neighbor who was troubled with nervousness, and they cured her, too. We all think there is nothing equal to Milburn's Heart and Nerve Pills."

**A New Consumption Cure.**

A new remedy for tuberculosis, developed in France, has been reported to the state department by United States Commercial Agent Atwell at Roubaix. It is a treatment called to the attention of the Academy of Medicine by Dr. Mendel and consists of the daily injection into the bronchial tubes of essence of eucalyptus, thyme and cinnamon held in solution in olive oil. The oil in descending slowly comes into contact with the walls of the tube and upper lungs. The gas set free saturates the air in the lungs and acts on the mucous membrane. In 16 cases treated, after one or two weeks there was in all a lessening or complete cessation of the cough and expectoration as well as a return of sleep, appetite and strength.

As a remedy for nervousness, a few applications of the grey hair oil to the head was changed to a natural color by using LUBBY's Hair Oil. I now use it when I wash my hair.

### HOTELS.

#### Queen's Hotel

**RAT PORTAGE.**  
Since being taken over by the present proprietor the Queen's has been entirely remodelled and is in great favor with the traveling public. The bar is supplied with the finest brands of wines, liquors and cigars. Rates \$1.00 to \$2.00 per day. Special attention is given to the dining room. Bus. routes all trains.  
J. C. BRADLEY, Prop.

## Mines and Mining Properties.

First Class Mining Prospect for sale in Shovel Lake, Manitoba, and Lake of the Woods. OR GOOD TERMS.

Developed Properties for Sale.

A few first class properties well developed and favorably reported on by the best Mining Engineers will be

and was 72 years old.  
President McKinley was particularly pleased with the souvenir menu card given him at the Chicago jubilee luncheon. It was folded into book form, bound in white Russian leather, lined with white moire silk, ornamented on the cover with a miniature portrait of himself, and was the work of Miss Juliette Windett, a young painter of Illinois.

### TURF TOPICS.

Martha Daly will send a string of thoroughbreds to England next year. The Kendall stock farm, Valley Falls, Kan., has weaned a crop of 12 foals, most of them fillies.

Miss Margaret, by Direct, made her first start of the year at the Greenburg (Pa.) races, and won a race in 2:16.

When Charlie P trotted in 2:20 1/2 at the Washington state fair, he was the first of the get of Baymont to take a standard record.

A polo club has been organized in Kansas City and now has 16 members, including some of the leading horse fanciers in the city.

Ponce de Leon has a record of 2:17, and his son Percy, who recently died in Cleveland, had a record of 2:13 also. Same old "13" again.

When Monterey, by Sidney, trotted the second heat of the free for all at Glebebrook park, California, in 2:08 1/2, he lowered his record from 2:11.

The 3-year-old colt Louis Parcel, 2:20 1/2, owned by N. J. Sebald, Middletown, O., took his record five weeks after having been taken from pasture.

The Duke of Westminster, Edgeland, recently offered W. H. MacDonough, San Francisco, \$50,000 for the thoroughbred stallion Ormonde, but the offer was refused.

When Driver Bunch was fined \$10 for laying up a heat in the recent Los Angeles races, he raised his hat to the judges in acknowledgment when he passed the stand the next heat.

The American trotter Monadnock, who has been for the past few years campaigned in France, has been sent to Austria, to race there, and in his first race reduced his European record.—Horseman.

### WOMEN'S WAYS.

Women always talk about it when a couple get married after a short engagement.

When it rains on a reception, the women who are not invited feel that the Lord is on their side.

One of the first indications of a growing discontent in a woman is that she refers to dishwashing and managing her husband as "problems."

When a married woman goes away on a visit and comes home earlier than intended, it is usually a sign that she loves her husband, though something she comes back to see if she can catch him at anything.

Is one particular no stove does what is advertised for it. Pictures of a new stove always represent a woman with a white apron on and her hair curled, the picture of neatness, engaged in cooking the meal. As we said before, no stove does all that is advertised for it.—Atlanta Globe.

half of September is over. I always know that if I live past this day I'm sure to live till another year. Oh, I'm certain of it! Why, it's a sign I've never known to fail, never.—Washington

## DREADED MEAL TIME

THE STORY OF A DYSPETIC WHO HAS FOUND A CURE

There is an Intimate Connection Between Good Health, Happiness and Good Digestion—Dr. Williams' Pink Pills Bring About These Conditions.

From the Tribune, Des Moines.

"Without good digestion there can be neither good health nor happiness. More depends upon the perfect working of the digestive organs than most people imagine, and even slight functional disturbances of the stomach leave the victim irritable, melancholy and apathetic. In such cases most people resort to laxative medicines, but these only further aggravate the trouble. What is needed is a tonic—something that will build up the system instead of weakening it—such as purgative medicines do." For this purpose there is no medicine equal to Dr. Williams' Pink Pills. They enrich the blood and strengthen and stimulate the digestive tract from first to last.

In proof of this assertion the case of Mrs. Thomas A. Stewart, the well-known and genial proprietor of the Oriental Hotel, Des Moines, may be quoted. To a reporter of the Tribune who mentioned the fact that he was suffering from dyspepsia, Mrs. Stewart said: "Why don't you try Dr. Williams' Pink Pills? Asked why he gave such advice Mr. Stewart continued: "Simply because they are the best medicine for that complaint I know of. For years I was in great suffering from indigestion, and during that time I think I tried a score of medicines. In some cases I got temporary relief, but not a cure. I fairly dreaded meal times and the food that I ate gave me but little nourishment. On the recommendation of a friend I began using Dr. Williams' Pink Pills a little over a year ago. I soon experienced relief and no longer dreaded meal times, but as I was determined that the cure should be permanent, I continued taking the pills in light doses for several months. The result is every vestige of the trouble left me and I have as good an appetite now as any boarder in the house, and my digestive organs work like a charm. I may also add that my general health was greatly improved as a result of using the pills."

"Do you object to my publishing this in the Tribune?" asked the reporter. "Well, I have no desire for publicity," said Mrs. Stewart, "but if you think it will help anyone who suffers as I did, you may publish the facts." Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. If your dealer does not keep them, they will be sent postpaid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

fronted in the boxes.  
"Daughters of the Poor" contains a realistic scene and shows Carrie Radcliffe as the blind girl hanging in mid-air by a rope, while her pursuer, standing on the fire escaped, is killed by a bolt of lightning.

Fran Cosima Wagner made a large sum out of last summer's Wagner festival at Bayreuth. American ladies were the financial mainstay of the season. Fran Wagner's war on ladies' hats was short and fierce, and the hats had to go.

Robert Mantell produced his new play in Trenton. It is called "The Longcor and the Cross," and has four acts and a prologue. The play was written by W. A. Treman, who dramatized it from Joseph Hutton's novel of the same name.

An old time manager's agent was once booking attractions. He asked his client what he thought of "Young Mrs. Winthrop" as an attraction. "Oh," was the accommodating reply, "if she's a fair actress and wears swell togs give her a week."

A new idea is "The Richard Mansfield Calendar For 1900." It contains "pictures of Richard Mansfield's favorite characters, a few quotations and some good wishes," the quotations and good wishes being in reproduction of Mansfield's hand.

### APHORISMS.

Think wrongly. If you please, but in all cases think for yourself.—Lessing.

Labor bids us of three great evils—irksomeness, vice and poverty.—Voltaire.

Justice is the constant desire and effort to render to every man his due.—Justinian.

A good face is a letter of recommendation, as a good heart is a letter of credit.—Bulwer.

We blame others for slight things and overlook greater in ourselves.—Thomas a Kempis.

Evil events come from evil causes, and what we suffer springs, generally, from what we have done.—Aristophanes.

Men possessing minds which are morose, solemn and inflexible enjoy, in general, a greater share of dignity than happiness.—Bacon.

Of all virtues magnanimity is the rarest. There are a hundred persons of merit for one who willingly acknowledges it in another.—Hazlitt.

### FLOWERS.

The petunia is a particularly good plant for window cultivation in winter.

The heliotrope is not a good winter window plant in a cold climate. It cannot stand the dry heat of our sitting rooms.

It is easy to repot a fuchsia. Simply turn the ball of roots out in your hand, having ready a larger pot with some fresh soil in the bottom. Set the ball in the center and pack the soil around it and water well.

It is a little odd that the tuberose should have gone so completely out of favor. You can hardly find one in a flower store. Probably the cloying sweetness of the odor has something to do with its loss of popular favor.

As if by magic, after a few applications, every grey hair in my head was changed to its natural color by using LUBYS Parisian Hair Restorer. I now use it when I require to set my hair. Try it and see for yourself. 75c a bottle.

Sort of a record.  
First Hindoo—Have you ever been for a boat sail?  
Second Hindoo—Oh, yes.  
First Hindoo—How did you enjoy it?  
Second Hindoo—I did not like it fr's too horrible. The boat is going upside and downside, and your insides is going inside and outside.—Punch.

Sound Advice.  
Manager—There is one motto, my young friend, that you seem to have left out of your consideration and that I advise you henceforth to bear in mind.  
Fresh Actor—What is that, play?  
Manager—Think before you act.—Richmond Dispatch.

The Undeflectable Mountain.  
"This butter," remarked the summer boarder fretfully, "is very strong."  
The other summer boarder silvered affrightedly.  
"Pray don't make a mountain out of a mole hill, or we shall be charged mountain resort rates," he implored in a low voice which nevertheless thrilled with earnestness.  
They glanced apprehensively at the host, but he, happily, was eating watermelon and making so much noise with his mouth as not to have heard.—Detroit Journal.

A Victim of Piles  
For 20 Years—A Constant Sufferer From Bleeding and Protruding Piles—Cured by Dr. Chase's Ointment.  
In vain did Mrs. Jas. Brown, of Hintonburg, near Ottawa, search for a cure for piles. In Europe and America she tried every remedy available, but it remained for Dr. Chase's Ointment to effect a cure.  
Mrs. Brown writes: "I have been a constant sufferer from nearly every form of piles for the last twenty years, and during that time both here and in the Old Country have tried most every remedy.  
"I am only doing justice to Dr. Chase's Ointment when I say that I believe it to be the best remedy obtainable for bleeding and protruding piles. I strongly recommend Dr. Chase's Ointment to mothers, or indeed to any person suffering from that dread torment—piles."  
Physicians and druggists recommend Dr. Chase's Ointment as the one preparation that will never fail to cure piles. It is guaranteed to positively cure piles, whether itching, bleeding, or protruding. 50 cents a box, at all dealers, or Edmanston, Bates and Co., Toronto.

## HOW WE LEARN.

Great truths are dearly bought. The common truths  
 Shall at men give and take from day to day,  
 In the common walk of easy life,  
 Turn by the careless wind across our way.  
 Great truths are greatly won, but found by chance  
 Asleep on the breast of summer dream,  
 Or roused in the great struggle of the soul,  
 Then fighting with adverse wind and stream.  
 But in the shadow of conflict, fear and grief,  
 When the strong hand of God, put forth in might,  
 Pushes the soul of the stagnant heart  
 And brings the imprisoned truth seed to the light.  
 When from the troubled spirit in hard hours  
 Of weakness, solitude, penitence of pain,  
 There springs the harvest from the well plowed field,  
 And the soul feels it has not wept in vain.  
 —Borax.

## WHEN THE SERPENT ENTERED.

How Mr. Brown Got Into and Out of Politics.

"My dear," said Mrs. Thomas Brown, this is the twelfth anniversary of our wedding day. I believe you had forgotten it?"

"Well, I haven't," replied the Hon. Thomas Brown, with a fine show of indignation. "I'm not likely to forget the day when I got you. I remember every detail with perfect clearness."

"What kind of dresses did the bridesmaids wear?"

"And," continued Mr. Brown, artificially avoiding the question, "I'm sure that we have plenty of cause to be thankful and happy. Certainly no man ever had a better wife."

"Thank you, my dear, and come home early tonight, so that we may have a little celebration."

After this pleasing episode the Hon. Thomas Brown started down town to his office, on his way to the train he made up his mind that he would send his wife a basket of fruit and some roses and that in the evening he would stop at the hotel to look at the bracelet which was his admirer.

It was strange, he reflected, how little happiness some people get out of life. There was he, still on the sunny side of 40, with a sufficient income, a devoted wife, two beautiful children and not a worry in the world. His place in his profession was assured. His colleagues respected him. He could see no cloud on the horizon of his hopes. He was as near complete contentment as a man can get.

In the reception room of his office not a dozen men were waiting. He recognized one as a well known politician and greeted him with a somewhat chilly nod as he closed the door of his private room. "A clerk, however, followed him and ushered in the delegation."

"We've come," said the spokesman, "to ask you to be our candidate for the state senate."

The Hon. Thomas Brown thanked them and said he had neither the time

looked out the window and saw that old Fitzmacher, the saloon keeper, was at the head of them. If that's politics, I'd rather have the mumps."

"But you see, Fitzmacher is the member of the city central committee from this ward, and the others are the officers of the ward club. They came over to congratulate me on my candidacy for the senate. I couldn't do less than thank them, could I? They've arranged a mass meeting for this evening to endorse me, and I suppose I'll have to go over and make them a little speech."

"I thought you wouldn't have to turn over your hand?"

"Well, you know a candidate is bound to get the endorsement of his home ward. Once I get that fixed up, you'll see that there'll be no more trouble."

An hour later Fitzmacher drove up in an old hack, and the Hon. Thomas Brown descended to welcome him. His wife gave him fair warning.

"If you go riding around on the streets with that man, Tom Brown," she called after him down the stairs, "I'll never be seen on the street with you again. What do you suppose the neighbors will say?"

In the gray hours of the early morning the hack again drew up before the house, and Mr. Brown entered the once quiet and happy dwelling. As the door closed a crowd of men and boys who had followed the hack from the meeting place, cheered loudly.

It was 9 o'clock before Mr. Brown appeared for breakfast. His wife received him with a pitying smile, in which tears and anger were equally mingled. She laid before him a copy of The Morning Echo and pointed in silence to the headlines over an article on the first page.

"Tom Brown Out for Senator," it read. "Ridiculous Assertion of a Broken Down Politician." "Hints of Sensational Exposures to Be Made."

"Here," said Mrs. Brown, "Nothing to make any change in our home life. I elected without an effort on your part. Duty to the state? What do you say to that?"

Mr. Brown lost what little appetite he had. He read the article through with anxious care. Then he wrote. The children looked up in surprise.

"The doorbell began ringing before 7 o'clock this morning," went on Mrs. Brown. "There was a procession of all sorts of men neither you nor I had ever heard of. They all wanted to see Senator Brown. I want you to sign that newspaper for him."

"My dear," said the Hon. Thomas Brown, with a weak and pleading smile, "you mustn't let that bother you so. Public men, you know, are subject to the attacks of the partisan press. Before I forget it, there was one little thing I wanted to speak to you about. You buy your groceries at Hilson's, do you not? Well, now, just as a favor to me, would you object to changing? You see, Hicks, on the opposite corner, is I find, the president of the Brown club. Don't you think it would be a little pleasant all around if we patronized him?"

"Mr. Brown," persisted his wife, "will you see that paper for him?"

"Well, there are generally a few umbrellas around that one way borrow." —Philadelphia North American.

## Facing the Future.

There comes a time to most women when they must face the future of widowhood and motherhood. What that future has in store for them depends largely upon themselves. To a healthy woman the obligations and consequences of marriage are a lasting happiness. To a woman suffering from irregularity or other ailments of the sex, marriage may prove a mockery and motherhood a misery. Where such irregularity exists Dr. Pierce's Favorite Prescription can be used with the assurance that health will speedily be restored. It is the most reliable medicine known to medical science for the cure of diseases which affect the delicate womanly organs. "Favorite Prescription" is a non-alcoholic medicine and is also free from opium cocaine and other narcotics.

At an early stage of married life," writes Mrs. Flora Arn. of Dallas, Jackson Co. Mo., "I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain and I began to gain in flesh very rapidly. I owe all praise to Dr. Pierce and his wonderful curative medicines."

Medical Adviser, paper covers, sent free on receipt of 31 one-cent stamps to pay cost of customs and mailing only. The cloth-bound volume for 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Watts—Women do dearly love the military.

Potts—Oh, yes! I think that is the instinct the department horses appeal to when they always advertise bargain slaughters. —Indianapolis Journal.

One Advantage.

"Still, living in a boarding house has its advantages."

"I don't know of any."

"Well, there are generally a few umbrellas around that one way borrow."

—Philadelphia North American.

Such a crowding of the planets around the sun is very rare. It would require a tedious calculation to determine just when it will occur again. Probably it does not occur more than once in a century. If indeed so often.

It may be worth while, in view of certain semi-superstitious ideas which are current, to add that this one-sided massing of the planets is of no special importance or significance. It will produce no effect upon the earth perceptible by any ordinary observation, nor exert upon human affairs the slightest influence, either harmful or beneficial.

### Items of Local Interest

A. C. Boyce received from H. A. C.  
Michlin, with the first contingent, a  
number of interesting mementoes of  
the war in the shape of the Queen's choic-  
est box, and a pipe and several other  
articles taken from Charlie's luggage  
after the fight at Paderborn.

A surveying party is at work on the  
C.P.R. surveying for the new double  
track to be laid from Winnipeg to  
Fort William. Owing to the increas-  
ing traffic over this part of their sys-  
tem the company has been compelled  
to put down a double line.

A change of time will take place on  
the C.P.R. on Sunday next, when the  
Imperial Limited will be put on.

R. Thompson, secretary of the hos-  
pital, acknowledges with thanks re-  
ceipt of \$12.34 donation from W. G. John-  
son, Rat Portage.

make an appreciable difference. Still,  
a heavy fall of rain in the Bowstring  
country should raise the level of Rainy  
river in a short time. The present in-  
dications are that rain will continue  
frequently this month so that we need  
not fear low water so much for the  
rest of the season.

The yacht Antelope, owned by  
Messrs. Palmer, Anderson, Crabbe  
and Baddy, was the most broken in the  
strong wind yesterday. The owners  
thought it was an ideal day for a sail  
and were enjoying themselves im-  
mensely when the accident occurred.  
A new mast of B. C. cedar has been  
ordered and will be in place in a few  
days.

Tabernacle home, Sunday evening:  
"The determining Factors in the Home  
Influence."

Mrs. G. C. Yates and Mrs. C. E.  
Noads were delegates to the W. M. S.  
conference held at Brandon this week.

Don't overlook the big sale of dry  
goods, clothing, furnishings, boots and  
shoes. Two big bankrupt stocks  
bought at one-third the dollar. Every  
article sold at a bargain. See ad. in  
another column. Rodgers, Burns & Co.

### You are Talked About

Rev. G. A. Larson, Scandinavian  
consul at his place, and pastor of the  
Swedish church, left Tuesday on a  
trip to his old home in Sweden. He  
will also visit Denmark, Norway and  
Germany and will be absent till the  
middle of September. During his  
absence the pulpit of his church will  
be occupied by Rev. Mr. Johnson.

The Rev. J. W. B. Page and Mrs.  
Page are expected back from their  
European trip next week.

Jno. Francis and G. F. Hubbert, of  
Koochiching, are in town attending  
court.

Beat Clark, of Port Hyland, was in  
town this week.

Magistrate Holland, of Fort Fran-  
cis, is in town this week.

J. R. Lamb, editor of the Wabigoon  
Star is in town being one of the grand  
jurors.

Miss Albert Gooding, who has been  
visiting her aunt Mrs. Stratton,  
Peterboro, returned this week.

Wm. Hall, son of Richard Hall, who  
has been attending Manitoba Medical  
College for the past four years has  
passed his examinations and is now a  
full-fledged M. D. His many Rat  
Portage friends are glad to hear of his  
success.

Mrs. Stratton of Peterboro, wife of  
Hon. J. R. Stratton, Provincial Sec-  
retary is visiting her sister, Mrs. E. A.  
Gooding, wife of C.P.R. agent here.  
Mrs. Stratton will be here till the end  
of the month when her husband will  
join her and they will continue the  
trip together to Winnipeg, Banff and  
the coast cities returning to their

## BAZAAR BOOKS..... STATIONERY.

Imperial Bank Bldg. MAIN ST. Sign of the Book.

home about 1st September. A number  
of the admirers of the provincial sec-  
retary are anxious that he should ad-  
dress a meeting while here on the  
questions of the day, and it is thought  
that he will consent in this request.

Jacob Flanders and John Clark, of  
the Triggs mine are in town this week.

Mr. James Allen of Owen Sound who  
has been appointed Customs officer at  
Mine Centre to succeed Mr. Douglas  
arrived from the east this morning en-  
route to Mine Centre.

G. H. Cohurn, who formerly prac-  
tised law here, and is now practising  
in Walkerville, is in town attending  
court as a witness.

Ed. Connors, of Beaver Mills, is in  
town laid up with a severe attack of  
inflammation of the eyes.

Barrister Sissons, of Fort Frances,  
is in town.

Capt. and Mrs. Triggs and Miss  
Cladwick are visiting the Triggs mine.

Mr. Annis, of the Government ex-  
perimental farm at Dryden, is in town.

Hiram Bosted, of LeClair, Minn.,  
is in town this week.

Larry Beach returned Saturday  
night from Butte, Mont.

The Customs Department have  
moved into their new quarters in the  
new post office building.

Mrs. Geo. Hadley entertained a  
number of her young friends last  
night at her residence on Main street.  
The evening was most pleasantly spent  
in card playing and dancing.

The steamer Shamrock ran an ex-  
cursion Wednesday night to the Sul-  
tana mine. A barge was towed along  
side and an orchestra provided music  
for dancing. The Kewatin band also  
was on board and discoursed sweet  
music for the excursionists.

### Oratorio Ruth.

Tuesday evening next, June 12,  
Knox church choir, assisted by friends  
will give the oratorio Ruth. It will  
be given in the church and should be  
largely attended as the entertainment  
promises to be something exception-  
ally good. The practice has been going  
on very smoothly and the parts are all  
well up so that everything will be in  
shape in time. The price of admission  
is 25 cents.

The chorus will be a grand affair of  
about 40 voices, and the harmony will  
be soul-inspiring. The music is high  
class and sacred, and one seldom has  
an opportunity of listening to music of  
this order, so all who have a desire to  
hear something really good should  
attend.

### Half Crazy With Piles

Mr. Isaac Foster, Erie View, Nor-  
folk Co., Ontario, writes: "I was  
troubled with itching piles for about  
two years and could not sleep at  
night. In fact I was half crazy from  
the terrible itching. Reading about  
Dr. Chase's Ointment I purchased a  
box. After the second application I  
experienced relief and one box cured  
me thoroughly and permanently and  
that was two years ago." Dr. Chase's  
Ointment, 61 cents a bottle, all dealers.
